

# MATERIAL STANDARDS

## VINYL

**Size Standards:** No matter what size vinyl you are producing, an extra 7" of material is needed on each edge in order to display properly. (3" lap plus 4" pocket equals 7") If Live area is 14'x48', add 14 inches to both the height and the width to calculate the finished size. (14' + 14" = 15'2" tall) x (48' + 14" = 49'2" wide)

### 14'x48' bulletin:

Viewable area: 14'x48'  
Lap: 3" Pocket: 4"  
Finished size: 15'2"x49'2"
